AUGLAIZE GARDENS

Van Wert, Ohio

HEMEROCALLIS (Day Lilies)

Recent years have seen great improvements in the Hemerocallis, as well as great increase in their popularity. Now Auglaize Gardens offers strong field grown plants in the finer varieties. At least a few of them can be used in any garden to add a charming new note of bloom anytime from late May until early September, according to blooming season. Hardy plants, the Hemerocallis grow well in either full sun or partial shade, in dry or wet soil, and demand a minimum of care. In the Auglaize list will be found most of the outstanding varieties in both older and more recent introductions, early and late blooming varieties and a beautiful range of colors.

BLEEDING HEART (Dicentra Spectabilis)

A flower once very popular in the old-fashioned garden is "coming back" to wide popularity. Bleeding Heart thrives in partial shade. Especially effective in groups. Auglaize Gardens offers healthy, vigorous, field grown, undivided roots.

ORIENTAL POPPIES

Familiar standard varieties and rare new introductions are included in the Auglaize selection of Oriental Poppies. Strong, two-year-old field grown plants furnish the full, healthy roots we offer. Shipped during the dormant season, August and September, they are easily and safely transplanted. Auglaize Gardens has the distinction of being the introducer of nearly all of Dr. Neeley's hybrids, and a great many of these rare varieties are listed in these columns.

ORIENTAL POPPIES

Australia—A large massive flower of oxblood red, carried on a heavy stem. An outstanding flower which is worthy of being classed with Lula A. Neeley and Wurtembergia\$1.50

Beauty of Livermore—Deep oxblood red..... 1.00

Bracteatum—Blood red flower shading to orange. The parent of many of our red poppies..... 1.00

Cavalier (a Neeley introduction)—Cerise, somewhat similar in color and form to Wurtembergia, but a larger flower and lasts longer. The flower is wonderfully formed, of remarkable substance, is carried on a long stiff stem. An outstanding poppy in the red class 3.50

Duke of Teck—Crimson..... 1.00

Echo (a Neeley introduction)—This poppy is quite different from other pink poppies and is very attractive. The color is a light silvery pink with a light maroon blotch—one of our favorites of the entire group 5.00

Edna Perry—A lovely bright pink flower, opening a little later than Mrs. Perry. A vigorous grower..... .50

Enchantress (a Neeley introduction)—The color of this wonderful poppy is a soft lilac rose and by some observers might be termed lavender. Enchantress is a seedling of Masterpiece. It is as distinctive in color as its parent, but always opens perfectly, does not fade as quickly and is just a little deeper in color. It has none of the faults of Masterpiece and all of its good qualities. Enchantress is a distinctive improvement in poppies of this type and will prove extremely popular 5.00

Fire King—Glowing red..... .75

Flanders—Deep crimson, almost oxblood red75

Flashy Glow (a Neeley introduction)—Yellow with an orange cast, clearer than most others of this type. Blooms late mid-season..... 5.00

Goldschmidt—Orange scarlet 1.00

Goliath—Brilliant scarlet, short stocky stems..... 1.00

Grand Mogul—Large scarlet flowers..... 1.00

Grossfurst—Deep crimson, coal black spots..... .75

Hercules—A flame-red four-petaled flower of immense size75

Jenny Mawson—A fine large peach-pink that is very satisfactory75

Joyce—Cherry red50

Julia Buck—(a Neeley introduction)—Deep coral pink 2.00

Lachs Konigen—Peach-red with a pink cast..... 1.00

Lady Moore—Beautiful soft rose 1.25

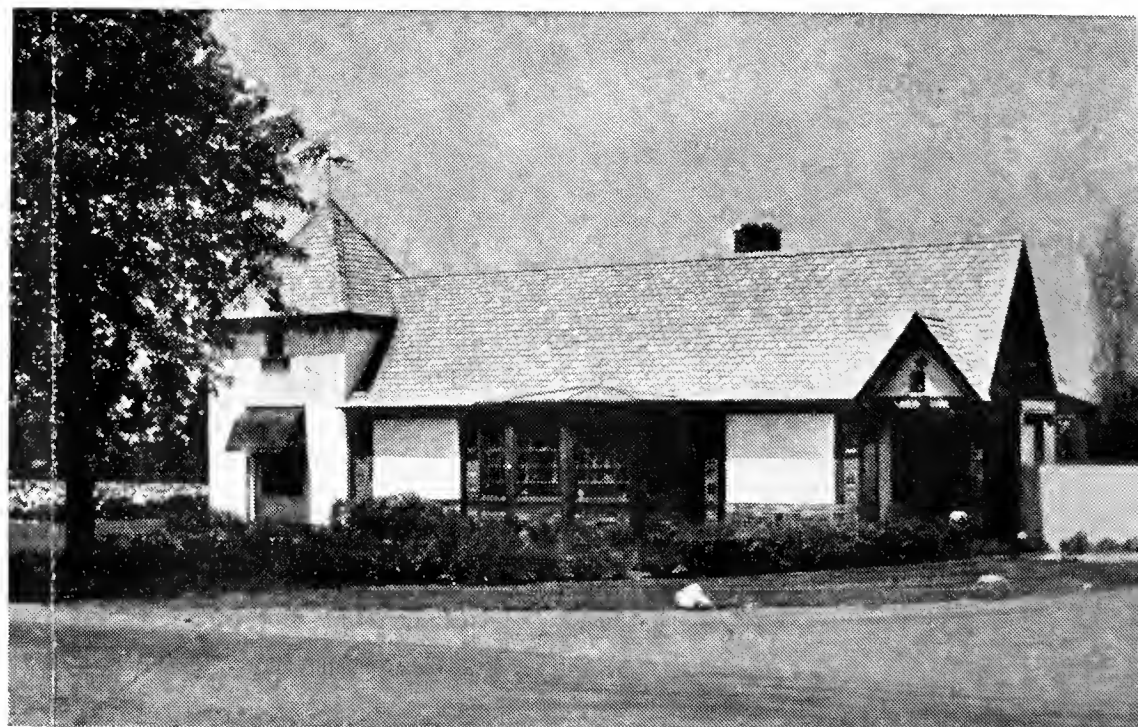

Little Prince—Scarlet, dwarf..... 1.50

Lord Lambourne—Light scarlet, lacinated petals..... 1.00

Lula A. Neeley (a Neeley introduction) — Beyond question the finest red poppy grown today and not surpassed by any other for clarity of color, freedom of bloom and good habit of the plant. A good cut flower75

Mandarin—A true Chinese red of good size and fine substance. Vigorous grower..... 1.50

Mary Jane Miller (a Neeley introduction)—The lat-

PIES

est of Dr. Neeley's introductions and we feel one that may turn out to be his finest. The flower is very large, of an intense shade of geranium pink and is carried on tall stiff stems. An early prolific bloomer. Outstanding in every respect.....	15.00
Mrs. Fisher —Large, deep crimson.....	.75
Mrs. Perry —Salmon Pink.....	.50
Olympia —Early, double, flame scarlet.....	.75
Ophir Gold (a Neeley introduction)—A light orange, we feel the best flower of its color class yet introduced	7.50
Orange Beauty —Orange red.....	1.00
Orange King —Orange red.....	1.00
Orange Queen —Orange red	1.00
Orientele —Orange scarlet50
Proserpine —A fine cerise flower which when well grown very much resembles Wurtembergia, but lacks the substance and clear color of the latter and does not weather as well.....	.50
Purity (a Neeley introduction) Soft pink, no spot.....	7.50
Silverblick —Salmon pink	1.00
Trilby —Late and very fine, very deep red, crinkled petals	1.50
Welcome —Deep scarlet	1.50
Wurtembergia —With the exception of Cavalier, this is probably the largest of all poppies; flowers are often 11 inches across. The color is cerise scarlet with a black blotch. Has always been an outstanding poppy	1.00

GROUP TWO — Outstanding New and Rare Varieties

Auglaize Gardens is known to peony fanciers as one of the world's foremost growers of new and rare varieties. In this group will be found some very scarce hybrids, an assortment of the best of recent introductions and a few of the older varieties which are still not plentiful enough to be included with the lower priced groups.

All varieties listed (with the exception of a few too recent to have official ratings) are highly rated by the American Peony Society standards. Fine, healthy specimens of beautiful, highly developed peonies. Every root a full, five eye division from a choice, three-year-old field grown plant, irrigated and nurtured for propagation purposes only.

Two New Neeley Peonies

Dr. Neeley, perhaps America's greatest poppy hybridizer, has also created many splendid peonies, two of these are listed this year for the first time. Auglaize Gardens is pleased to present these introductions.

Garden Princess. Distinct and very handsome flower. In our estimation one of the best that Dr. Neeley has produced. The plant is very tall and graceful, the flowers are flat and semi-rose. The color a deep ivory pink somewhat darker than Tourangelle. Blooms in midseason \$25.00
Leto, Japanese type. Creamy white which will fade to pure white with exposure to sun. Guard petals are exceptionally heavy and the flower is unusually beautiful \$25.00

GROUP THREE — Good Varieties for Special Uses

Beautiful, highly rated peonies every one but flowers which are not adapted for all garden purposes. Many, such as Solange and Tourangelle, make cut flowers of unsurpassed beauty but haven't sufficiently strong stems to hold up the heavy blooms under average garden conditions. Some have exquisite but delicate colors that will not withstand strong direct sunlight. Big, five eye divisions from healthy three-year-old plants.

A Note on Peony Prices

Peony prices are determined in all cases by the comparative scarcity of the variety. New introductions necessarily command a relatively high price until they are produced in sufficient quantities to make a lower price commercially possible. The wide range in price does not mean that one variety is necessarily much better than another, although this, of course, enters to some extent in the determination of prices, especially in group one. Scarcity as well as desirability is a large factor in determining the prices in group two.

All Auglaize roots are big, full-bodied, five eye divisions freshly dug from healthy, field grown, three-year-old plants. In a few simple words, Auglaize roots are the best peony roots that can be produced, at the lowest prices consistent with high quality.

GROUP FOUR — Old Favorites at Low Prices

Some excellent peonies are among the varieties that have been on the market a number of years, consequently are low in price. While they are not as highly developed varieties as those in groups One and Two, the Lifetime Peonies listed below are very good for "filling in", or for quantity planting at the attractive prices. Five eye divisions from roots of three-year-old field grown plants.
